

Report: Index of SCORE reports

158

Description:	Lists all SCORE reports ordered by reporting category and report title.
Impact:	Not applicable. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Not applicable.
Other:	None.
Criteria:	No restrictions apply.

Report: £ Optimisation summary

176

Description:	Provides a summary of the impact on funding of all Optimisation reports which specifically indicate a potential under-claim or over-claim of funding.
Impact:	May identify potential under-claim or over-claim of funding. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Where a potential under-claim or over-claim is identified it is advised to run the appropriate report.
Other:	None.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

	Learners	Enrolments	Probable £	Possible £	Total £

Report: Additional learning support > £19,000

126

Description:	Identifies learners where the annual additional learning support cost is above £19,000. It may be appropriate to request additional funding from the LSC to reflect costs incurred above this threshold.
Impact:	Possible under-claim of funding.
Suggested:	Check additional support cost (L31) and seek written authorisation from local LSC to ensure that the funding claim is met.
Other:	Includes funded learners only.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: Developmental learning

331

Description:	Lists the curriculum provision determined by LSC as being 'lower priority' and therefore most likely to be at risk due to ongoing funding reductions. In this report, 'Developmental Learning' has been defined as being Adult Learner Reponsive (ALR) funded activity but outside the priority areas full level 2, full level 3, approved Skills for Life and Foundation Learning Tier.
Impact:	Potential future funding cuts relating to this provision.
Suggested:	Review the programmes within this report, in light of ALR funding allocations, and consider what future reductions may be necessary.
Other:	None.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: Disadvantage (asylum seekers)

146

Description:	Identifies learners having fees waived because they are asylum seekers in receipt of the equivalent of an income-based state benefit whose disadvantage uplift factor does not reflect this correctly. Learners who are asylum seekers automatically qualify for a 12% disadvantage uplift where applicable. Failure to accurately reflect all learner disadvantage is likely to have a negative impact on future years' Provider Factors.
Impact:	Possible under-claim of funding.
Suggested:	Check disadvantage uplift eligibility (L32) and factor (L33).
Other:	Includes funded learners only.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Optimisation

Report: Disadvantage (postcode)

148

Description:	Identifies learners whose postcode-related disadvantage uplift factor is incorrectly recorded within the ILR. Failure to accurately reflect all learner disadvantage is likely to have an inappropriate impact on future years' Provider Factors.
Impact:	Possible under or over-claim of funding.
Suggested:	Check disadvantage uplift eligibility (L32) and factor (L33).
Other:	LSC postcode factors are held to 5 decimal places but are rounded here to 4 decimal places as L33 only allows factors to be recorded to 4 decimal places. Includes funded learners only.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: Disadvantage (skills for life)

147

Description:	Identifies skills for life learners whose disadvantage uplift factor does not reflect this correctly. Learners automatically qualify for 12% disadvantage uplift where applicable. Failure to accurately reflect all learner disadvantage is likely to have a negative impact on future years' Provider Factors.
Impact:	Possible under-claim of funding.
Suggested:	Check disadvantage uplift eligibility (L32) and factor (L33) and programme of study.
Other:	See LSC guidance for detailed definition of a skills for life learner. Only LSC funded provision is included in the calculation of skills for life expected AGLHs and total expected AGLHs. To give a more complete picture of the learners' full programmes, all provision for a learner is shown on the report. Includes funded learners only.
Criteria:	All provision whether generating funding or not is included irrespective of the funding filter flag.

Report: Enhanced funding not claimed (16-18 year olds)

89

Description:	Identifies full time learners aged 16-18 at the start of their learning programme who may be eligible for 'enhanced' funding (under the 16-18 full time 'entitlement').
Impact:	Possible under-claim of funding. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Check eligibility for 16-18 FT entitlement funding and amend ILR (L28a, L28b) where appropriate.
Other:	Note that this report may include full time HE, WBL or other learners who are studying an LSC funded aim in addition to their main studies. In this case, enhanced funding should not be claimed. Includes funded learners only.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: GLH (16-18 NVQ enrolments close to full time threshold)

110

Description:	Identifies 16-18 enrolments to listed NVQ's where the annual guided learning hours are immediately below the threshold for the highest level of funding.
Impact:	Possible under-claim of funding. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Check guided learning hours (A32).
Other:	For individually listed NVQs available funding increases significantly when the 450 AGLH threshold is reached.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

	Learners	Enrolments	Probable £	Possible £	Total £

Report: Learners with inconsistent remission codes

22

Description: Identifies enrolments where tuition fee remission has not been claimed but the same learner is enrolled to other qualifications where remission has been claimed. Whilst there are a number of valid reasons for this (e.g. change in eligibility between start dates, remission capping for additionality), it may indicate inappropriate inconsistencies.

Impact: Possible under-claim of LSC funding.

Suggested: Check eligibility for tuition fee remission funding (A14) and amend where appropriate.

Other: May be useful to focus on enrolments recorded as being subject to a college-waiver.

Criteria: Only provision generating funding is included irrespective of the funding filter flag.

Report: Remission not claimed (adult level 2 entitlement)

207

Description:	Identifies adult learners enrolled to full level 2 programmes for which tuition fee remission is not being claimed. Tuition fee remission funding is available for such learners where they do not already possess a full level 2 qualification - as such, learners with prior attainment at levels 2 or above (with reference to ILR field L35) are excluded from this report.
Impact:	Possible under-claim of LSC funding. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Check tuition fee (A13), eligibility for tuition fee remission funding (A14) and accuracy of prior attainment (L35) and amend where appropriate.
Other:	Caution should be exercised over learners with unknown prior attainment (L35 = 98) as it is inappropriate to assume no prior attainment simply because none have been provided by the learner.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: Remission not claimed (adult level 3 entitlement - 19-24)

209

Description:	Identifies adult learners (19-24 years inclusive) enrolled to full level 3 programmes for which tuition fee remission is not being claimed. Tuition fee remission funding is available for such learners where they do not already possess a full level 3 qualification - as such, learners with prior attainment at levels 3 or above (with reference to ILR field L35) are excluded from this report.
Impact:	Possible under-claim of LSC funding. For consistency with LSC reporting the National funding rates have been used when calculating potential under or overclaims. Note that some providers may use different rates at this time due to Transitional Arrangements. All potential under or overclaims are only estimated. Individual circumstances will dictate the actual impact on funding.
Suggested:	Check tuition fee (A13), eligibility for tuition fee remission funding (A14) and accuracy of prior attainment (L35) and amend where appropriate.
Other:	Caution should be exercised over learners with unknown prior attainment (L35 = 98) as it is inappropriate to assume no prior attainment simply because none have been provided by the learner.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

Report: Funding changes between current and previous ILR

195

Description:	Summary comparison of LSC funding variances between the current and previously imported ILR for the current year.
Impact:	Helps to identify what changes have been made between any 2 ILR files which may have an impact on funding.
Suggested:	Not applicable.
Other:	For an in-depth analysis of the changes use the accompanying on-screen utility.
Criteria:	All provision whether generating funding or not is included irrespective of the funding filter flag.

	Learners	Enrolments	Probable £	Possible £	Total £

Report: Funding summary viewer

324

Description:	Summary of funding by aim, learner, department, aggregate and course, giving average funding per enrolment and SLN. Provides a powerful tool which enables funding and provision to be viewed from different perspectives. Also provides a useful drill-down into the actual underlying data.
Impact:	Helps to highlight the relative performance and volumes generated by the different business areas within the organisation. Could also highlight certain funding anomalies.
Suggested:	Not applicable.
Other:	For an in-depth analysis use the on-screen utility.
Criteria:	Only provision generating funding is included irrespective of the funding filter flag.

	Learners	Enrolments	Probable £	Possible £	Total £
